Transportation **22**: 419–420, 1995

CONTENTS Volume 22 1995

Volume 22 No. 1

Articles

JOSEPH MENSAH: Journey to work and job search characteristics of the urban poor: a gender analysis of a survey data from Edmonton, Alberta 1–19

RICHARD H. M. EMMERINK, KAY W. AXHAUSEN, PETER NIJKAMP & PIET RIETVELD: Effects of information in road transport networks with recurrent congestion 21–53

LAURENCE MATTHEWS: Forecasting peak passenger flows at airports 55–72

P. BONNEL: An application of activity-based travel analysis to simulation of change in behaviour 73–93

Contributors to this issue 95–96

Volume 22 No. 2

Articles

IRA HIRSCHMAN, CLAIRE MCKNIGHT, JOHN PUCHER, ROBERT E. PAASWELL & JOSEPH BERECHMAN: Bridge and tunnel toll elasticities in New York: some recent evidence 97–113

ALAN W. WILLIAMS: Should the user pay? lessons from Anglo-Australian history 115–134

ERIC I. PAS & SUBRAMANIAN SUNDAR: Intrapersonal variability in daily urban travel behavior: some additional evidence 135–150

KAY W. AXHAUSEN: Car availability change in England and Wales 1971–1981 151–164

RAM M. PENDYALA, LIDIA P. KOSTYNIUK & KONSTADINOS G. GOULIAS: A repeated cross-sectional evaluation of car ownership 165–184

Contributors to this issue 185–187

Volume 22 No. 3

Special Issue: Transportation and Air Quality
Guest Editor: Edward Weiner

EDWARD WEINER: Guest editorial 189–192
Articles

JAMES M. SHROUDS: Challenges and opportunities for transportation: Implementation of the CAAA of 1990 and the ISTEA of 1991 193–215
WILLIAM M. LYONS: Policy innovations of the US intermodal surface transportation efficiency act and clean air act amendments 217–240
JON KESSLER & WILLIAM SCHROEER: Meeting mobility and air quality goals: strategies that work 241–272
KEITH A. BARTHOLOMEW: A tale of two Cities 273–293
GEORGE M.J. BARRETT: Transport emissions and travel behaviour: A critical review of recent European Union and UK policy initiatives 295–324
Contributors to this issue 325–326

Volume 22 No. 4

ROBERT W. POOLE, JR. & YUZO SUGIMOTO: Congestion relief toll tunnels 327–351
JOHN F. McDONALD: Urban highway congestion: An analysis of second-best tolls 353–369
KIMON PROUSSALOGLOU & FRANK KOPPELMAN: Air carrier demand: An analysis of market share determinants 371–388
JONGHO RHEE: Development of an Eurasian transportation network: Potential and possibilities 389–412
Contributors to this issue 413
